### 3.0 UNPACKING

Remove the packaging and check all parts carefully. Contact your supplier immediately if parts are missing or damaged and do not try and assemble.

### 4.0 INSTALLATION

1. Place stand in the required position.
2. Make sure the rail can be raised and lowered without interference from other fixtures and furniture and that transfers can be carried out safely.

#### 4.1 Floor board fixing:

1. Mark through all holes in the base plate.
2. Remove stand and drill pilot holes suitable for the fixings.
3. Screw down using appropriate fixings.
4. Make sure screws go through floorboards and into the floor joists.

#### 4.2 Concrete floor fixing:

1. Mark through all holes in the base plate.
2. Remove the stand, then drill all holes using a suitable masonry drill.
3. Remove dust and insert plugs. Replace stand and secure using suitable fixings.
1. Using the black hand-wheel on the side of the support rail, release the rail and slide up/down the floor stand. Re-clamp the rail securely at the appropriate height using the black hand-wheel.

2. When fitted, check the product is securely fixed to the floor and that the arm can be raised and lowered without interference. Also check that the friction lock is effective and that the support rail will hold itself at any angle during movement (i.e. it does not drop down on its own).
3. Important; after installing the product, perform a final tighten and inspection of all fasteners
4. Test the installation, ensure the rail is rigid, stable and fit for purpose
